

NOTE: Colour and shade variation are inherent qualities in all fired ceramic products.

Middle Earth Handcrafted 250x250 Pavers are a traditional paver that has been handcrafted. Clay being a natural material provides a richness of colour which does not fade with time and the pavers will acquire a unique aged patina that will highlight the natural colours of the clay.

The ideal installation of Handcrafted Square 250 Pavers is on a mortar bed over a compacted metal base. With this method any variation in paver thickness, can be easily adjusted. The joints can be up to 12mm wide, and when grouted will not allow growth (weeds) between the pavers as well as controlling ants nesting between joints.

**Benefits Middle Earth Square Pavers offer:**

**High Strength** - with a "tile quality" surface

**Suitable for driveways** - and paths and swimming pools

**Do not Reflect Sunlight** - will not dazzle

**Long Lasting** - easy to maintain and no pattern to wear out

**Colourfast** - will not fade with age (unlike concrete, will not effloresce through free lime in the cement)

**Factory Treated** - to protect the pavers from water absorption and frost protection

**Easily Installed** - can be installed on a compacted metal fines base (no concrete base required). Ideal for D.I.Y. installation.

**Handcrafted Square Paver Colours:**

**Size:** 250x250x40mm

**Coverage:** 16 Pavers per square metre

**Weight:** 68 kgs per square metre
