

NOTE: Colour and shade variation are inherent qualities in all fired ceramic products.

This tile demonstrates a sense of humour using an ancient icon (the first jigsaw puzzle is attributed to John Spilsbury, a London engraver and mapmaker around 1760). Middle Earth Tiles have given it a contemporary twist where the actual puzzle shape is used for its own sake. The distinct shape, linked together repeatedly gives rise to a visual link to the past. A puzzle is an enigma presented as entertainment. In today's world of high-tech virtual experiences, puzzle lovers attribute part of the jigsaw's allure to its tactile nature. This relates very closely to the Middle Earth Tiles ethos where the organic and tactile are our focus. Combining innovation and imagination we offer a wide range of handcrafted luxury tiles to achieve brilliance with quality craftsmanship.

For colours available refer to Middle Earth glaze colour list.

Wave tiles are supplied in sets of four tiles	Tile Set Sizes (mm)
