FRAMMENTI & RIFLESSI

"Frammenti & Riflessi" is an element of architectural décor. The material is designed to provide highlight and contrast, "fragments that create reflections".

The "recipe" is simply aimed toward an aesthetic look. It is a special and completely hand-painted watercolour process combined with glass.

The look is very impressive; the thickness of the glass gives depth to the iridescent tones of the mosaic colours and elements.

The tesserae are fragmented and worked with an exclusive patented system. The result is an antiqued finish that enhances the shape and plasticity of the tesserae; the reflections evoke the antique Venetian glass.

The "Frammenti & Riflessi" collection is produced on a solid body of porcelain stoneware, and the structure has a "worn" and "authentic" look.

In addition to being used for wall applications, the product is also ideal for decorating and enhancing floors, allowing infinite possibilities in mosaic designs.
